Email: pinjarialeema3@gmail.com

PROFESSIONAL SUMMARY

Motivated Master of Computer Applications (MCA) student with strong foundation in Data Science, Machine Learning, and Python programming. Hands-on experience in building real-time AI-based applications using CNN, Open CV, and TensorFlow. Seeking an international Data Science internship to apply analytical and problem-solving skills in real-world projects.

EDUCATION

Master of Computer Applications (MCA) - Chanakya University, Bengaluru

Bachelor of Computer Applications (BCA) - East Point College of Higher Education, Bengaluru University

CGPA: 8.47 / 10

EXPERIENCE

Data Science Intern - Null Class, Bengaluru (Oct 2024 – Present)

- Developed a CNN model for real-time emotion detection from facial expressions.
- Built age and gender detection system using pre-trained deep learning models and OpenCV.
- Integrated ML models into user-friendly applications with live webcam support.
- Improved model accuracy through data pre processing and tuning techniques.

TECHNICAL SKILLS

- Programming: Python, SQL, Java (Basics)
- Machine Learning: CNN, TensorFlow, Keras, OpenCV
- Web Technologies: HTML, CSS, JavaScript, Django
- Tools: VS Code, MySQL

PROJECTS

- Emotion Detection System: Built a CNN-based deep learning model and integrated with Django for webcam-based emotion detection.
- Online Bookstore: Developed a full-stack e-commerce web application using HTML, CSS, JavaScript, Java, and MySQL.
- **Heart Disease Prediction using ANN Python | TensorFlow | Scikit-learn**
- Developed a neural network model to predict heart disease from patient data (age, BP, cholesterol, etc.)

- Built a 2-hidden-layer ANN achieving **95.6% accuracy**; compared performance with KNN algorithm
- Evaluated model using Confusion Matrix and Classification Report
