PROFESSIONAL SUMMARY

Driven Data Science graduate student at Chanakya University with a focus on Full-Stack Development and Civic Technology. Experienced in managing data pipelines and designing user-centric interfaces for complex web applications. Proven ability to translate data insights into functional solutions for urban sustainability and media verification. Thrives in collaborative, fast-paced environments to build technology with social impact.

EDUCATION

Chanakya University

Bengaluru, India

Master of Science in Data Science

Expected 2027

TECHNICAL SKILLS

- **Languages:** Python (Pandas, NumPy, Scikit-learn), SQL, JavaScript (ES6+), HTML/CSS
- **Frameworks & Tools:** React, Streamlit, Firebase, Git, GitHub, Vercel
- **Data Science:** Data Visualization (Matplotlib, Seaborn), Data Management, Exploratory Data Analysis (EDA)

PROFESSIONAL EXPERIENCE

Build for Bengaluru Hackathon

April 2026

Data Management & UI Contributor

Bengaluru, India

- Collaborated in a cross-functional team to architect software solutions addressing urban infrastructure challenges in Bengaluru.
- Architected and managed data schemas to ensure high integrity and efficient retrieval for core application logic.
- Designed and implemented responsive UI components to enhance user engagement for civic reporting tools.
- Synthesized complex datasets to provide actionable insights presented to a panel of industry experts.

TECHNICAL PROJECTS

Truth Lens | AI Media Verification Platform

Jan 2026 – Present

- Developed a full-stack web application to combat misinformation by verifying AI-generated media and fact-checking content.
- Integrated modern web frameworks to deliver a seamless, high-performance user experience hosted on Vercel.
- Focused on digital integrity and user trust through transparent data verification workflows.

Mitra (Hasiru Mitra) | Urban Environmental Monitor

March 2026 – April 2026

- Created a civic engagement platform for monitoring the health and maintenance of public parks in Bengaluru.

- Built real-time reporting features allowing citizens to submit environmental data directly to urban authorities.
- Aligned project goals with Sustainable Development Goal 8 (SDG 8) to promote urban sustainability.
