

ARPITA UTTAM KUMAR RAYKAR

Vidhya Nagar , Haveri, Karnataka-581110 |arpitaukr@gmail.com| <https://github.com/ArpitaRaykar>
<https://www.linkedin.com/in/arpita-uttam-kumar-raykar-39541b393/>

Profile

Aspiring Data Scientist and highly motivated fresher with a strong academic background and a passion for data analysis and machine learning. Skilled in Python, data preprocessing, and building predictive models. Quick learners with the ability to adapt to new technologies and challenging environments. Eager to apply analytical and problem-solving skills to real-world projects while contributing effectively to organizational success.

Education

CHANAKYA UNIVERSITY Global Campus Devanahalli, Bengaluru

MSc in Data Science

CGPA: 9.54(Up to 1st semester)

2025-2027

KARNATAKA UNIVERSITY PC JABIN SCIENCE COLLEGE HUBBALLI

BSc in COMPUTER SCIENCE AND STATISTICS

CGPA: 9.1

2022-2025

KARNATAKA PRE UNIVERSITY

PACE PU COLLEGE MOTEBENNUR HAVERI

PCMB-Percentage: 76% - 2022

Experience(project Work)

1. Toll Track (Toll Management System) – Java

- Developed and implemented a toll management system using Java to ensure efficient toll collection and processing.
- Optimized database queries, achieving a **25% reduction in transaction processing time**.

2. Smart Shopping Trolley – IoT Project

- Designed and developed an IoT-based smart shopping trolley to automate billing in supermarkets.
- Reduced customer waiting time by **40%** using real-time product detection.

3. Health Lifestyle Dataset Analysis – EDA

- Performed exploratory data analysis to identify patterns in health-related data.
- Cleaned and visualized data to derive meaningful insights on lifestyle factors.

4. Heart Disease Prediction using KNN – Machine Learning

- Developed a machine learning model to predict heart disease using the **K-Nearest Neighbors (KNN)** algorithm.
- Performed data preprocessing, feature selection, and normalization on healthcare dataset.
- Evaluated model performance using accuracy and confusion matrix, achieving reliable prediction results.

5. Swiggy Sales Dashboard (Excel)

- Designed an interactive dashboard in Microsoft Excel to analyze Swiggy order and sales data.

- Used **Pivot Tables, Charts, and Slicers** to visualize key metrics like total orders, revenue, and peak hours.
- Identified trends in customer behavior, order frequency, and top-performing categories.
- Improved data readability and decision-making through dynamic and user-friendly visuals.

6. Uber Trip Analysis Dashboard (Tableau)

- Built an interactive dashboard using Tableau to analyze Uber bookings, revenue, and ride trends
- Visualized KPIs and patterns across **hours, days, and months** to identify peak demand and usage behavior
- Analyzed **fare vs distance and top pickup locations** to generate insights for revenue optimization

Skills & Abilities

Technical Skills:

- **Programming Languages:** C, Java, Python, R
- **Database:** MySQL, Mongo DB
- **Data Analysis & Machine Learning:**
- Exploratory Data Analysis (EDA), Data Preprocessing
- Algorithms: K-Nearest Neighbors (KNN), Logistic Regression, Decision Tree, Naive Bayes, PCA
- **Data Visualization & BI Tools:**
- Tableau, Power BI, Microsoft Excel (Pivot Tables, Dashboards)
- **Libraries & Tools:**
- Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, WEKA Tool
- **Other Technologies:**
- Arduino / IoT

Soft Skills:

- Analytical Thinking & Problem-Solving
- Attention to Detail & Innovation
- Responsible, Dedicated & Self-Motivated
- Time Management
- Leadership
- Good Communication & Presentation Skills.

Certificate:

- *Tableau Basics (Data Visualization & Dashboards)* Simplilearn, 2025

Activities and Interests

Travelling and exploring new places, Gardening.

DECLARATION

I hereby declare that all the information furnished above is true best of my knowledge.

ARPITA RAYKAR
