PROFILE SUMMARY

Aspiring Data Scientist with a strong foundation in Machine Learning, Deep Learning, Natural Language Processing (NLP), SQL, and Python. Proven hands-on experience in exploratory data analysis (EDA), data cleaning, feature engineering, predictive modeling, and data visualization using Power BI to generate actionable insights from real-world datasets. Demonstrates a results-oriented approach to solving business problems through data-driven analysis and decision-making. Seeking entry-level Data Scientist or Data Analyst roles to apply technical expertise and contribute to organizational growth.

EDUCATION

Master of Computer Applications (MCA) – Data Science
Chanakya University, Devanahalli | CGPA: 8.0 | 2024 – 2026
Bachelor of Science (BSc)
Sree Siddaganga College of Arts, Science and Commerce, Tumkur | CGPA: 8.6 | 2021 – 2024

TECHNICAL SKILLS

- Programming & Machine Learning:** Python (NumPy, Pandas, Matplotlib, Seaborn), Regression, Classification, Clustering, LSTM, BERT, NLP
- Data Analysis & Visualization:** Exploratory Data Analysis (EDA), Power BI
- Database Technologies:** MySQL (Joins, Group By, Aggregations)
- Web Technologies:** HTML, CSS, JavaScript
- Tools & Platforms:** Jupyter Notebook, GitHub, VS Code, SAS (Basic), Microsoft Excel
- Soft Skills:** Problem Solving, Leadership, Active Listening, Time Management
- Frameworks & Technologies:** .NET, ASP.NET

PROJECTS

Blockchain Proof of Green Energy Certificate

- Tech:** Blockchain, Solidity, Ethereum, Web3, Flask
- Designed a decentralized system to issue and verify renewable energy certificates using blockchain technology.
- Implemented smart contracts to ensure secure, transparent, and tamper-proof certification.
- Developed a web interface for certificate generation and verification.

Fake News Detection using Machine Learning & NLP
Built and evaluated classification models achieving 98% accuracy using BERT. Performed tokenization, TF-IDF vectorization, and embedding techniques.

Hotel Booking Analysis
Conducted exploratory data analysis and developed Power BI dashboards to analyze pricing trends, demand patterns, and booking cancellations.

Smart Student Attendance Management System using ASP.NET

A web-based system to manage student details, mark attendance, generate reports, and allow admin/teachers to track attendance digitally using ASP.NET and SQL Server.

CERTIFICATION

- Basic Python Certification (2025)
- Basic SQL Certification (2024)
- Basic C Certification (2024)
- Basic Computer Course (2023)
