

MANOJ V

Full Stack Web Developer | BCA Graduate

📞 7019170524 ✉️ manoj22610@gmail.com 📍 Bangalore, India

CAREER OBJECTIVE

Motivated and detail-oriented BCA graduate seeking an opportunity to work in a dynamic environment that encourages professional growth. Eager to apply full-stack web development skills, programming knowledge, and academic learning to contribute effectively to real-world projects.

EDUCATION

Master of Computer Applications (MCA) — Pursuing Chanakya University, Bangalore	2025 – 2027
Bachelor of Computer Applications (BCA) Bangalore University CGPA: 7.35	2022 – 2025
Pre-University (PCMC) Sri Maruthi PU College	2021 – 2022
Secondary School Certificate (SSLC) St. Joseph English High School Percentage: 80%	2019 – 2020

WORK EXPERIENCE

Full Stack Web Development Intern Prinston Smart Engineers	Feb 2025 – Mar 2025
▸ Gained hands-on experience in full-stack web development, working on both front-end and back-end components. ▸ Developed responsive web interfaces using HTML, CSS, and JavaScript. ▸ Worked with Python for back-end scripting and server-side logic. ▸ Collaborated with the development team on live projects and followed industry best practices.	

PROJECTS

Weather Forecasting System

- Developed a web-based weather forecasting application that fetches and displays real-time weather data.
- Built the front-end using HTML, CSS, and JavaScript with clean, user-friendly UI.
- Integrated external weather APIs to retrieve current conditions and multi-day forecasts.

Music Player Application

- Designed and developed a functional music player app with play, pause, skip, and volume controls.

- Implemented dynamic UI updates and playlist management using JavaScript.
- Focused on responsive design to ensure compatibility across devices and screen sizes.

Phishing Website Detection using Hybrid and Machine Learning Techniques

IEEE Research Paper | Chanakya University

- Developed a machine learning-based system to detect phishing websites using KNN and Logistic Regression algorithms.
- Achieved KNN accuracy of 93.98% and Logistic Regression accuracy of 93.35% on a real-world phishing dataset.
- Preprocessed dataset features including URL length, HTTPS usage, domain age, and website traffic with an 80:20 train-test split.
- Extended an existing hybrid KNN-SVM model from literature and benchmarked performance using accuracy metrics and confusion matrix.
- Authored and published an IEEE-format research paper documenting the methodology, results, and findings.

TECHNICAL SKILLS

HTML	CSS	JavaScript	Python
Full Stack Development	Database Management	Basic Excel	Communication Skills

CERTIFICATIONS & WORKSHOPS

- CCNA (Cisco Certified Network Associate) — Networking fundamentals, routing & switching.
- Android App Development — Hands-on training in building mobile applications for Android platform.
- Software Testing — Fundamentals of manual and automated testing, test case design, and QA practices.
- IoT Workshop — Developed an IoT-based prototype project during the workshop.
