

PRATIMA BASTOLA

MSc Data Science | Machine Learning | Data Analytics

pratimabastola18@gmail.com • LinkedIn: <https://www.linkedin.com/in/pratima-bastola-b433b5229> • +91 8100246771

PROFESSIONAL SUMMARY

Detail-oriented and analytically driven MSc Data Science candidate (2025–2027) with a foundation in business analytics from BBA studies. Skilled in Python, SQL, and machine learning frameworks with hands-on project experience in predictive modeling, fraud detection, churn prediction, and business intelligence. Adept at translating complex data insights into actionable strategies. Eager to apply data-driven thinking in Data Analyst and Data Science roles.

EDUCATION

MSc Data Science | Chanakya University

2025 – Present

- Core Modules: Machine Learning, Statistical Modeling, Big Data Analytics, Data Visualization, Natural Language Processing
- Key Topics: Supervised & Unsupervised Learning, Deep Learning, Database Systems, Time Series Analysis, Business Intelligence

Bachelor of Business Administration (BBA) | Bhavans Institute of Management Science

2021 – 2024

- Focused on business analytics, quantitative methods, operations management, and strategic decision-making
- Developed foundational data interpretation and market analysis skills applicable to data-driven roles

TECHNICAL SKILLS

Languages: Python, SQL, C, C++, Java

ML / AI: K-Nearest Neighbors (K-NN), Decision Trees, Random Forest, Logistic Regression, Clustering, Data Mining, SMOTE, Feature Engineering

Libraries: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, SciPy, Imbalanced-learn

Data Skills: EDA, Data Cleaning, Handling Missing Values, Class Imbalance, Feature Scaling, Model Evaluation

Metrics & Tools: Accuracy, Precision, Recall, F1-Score, ROC-AUC, Confusion Matrix, Cross-Validation

Visualisation & BI: Tableau, Matplotlib, Seaborn, Google Data Studio (Basics), Excel (Advanced)

Databases: MySQL

Tools: Jupyter Notebook, Google Colab, Git, GitHub, VS Code, Microsoft Office Suite

WORK EXPERIENCE

Digital Marketing Intern | Ugurria

Dec 2023 – Jan 2024

- Designed and executed digital marketing campaigns across social and search platforms, driving measurable audience engagement
- Utilised analytics tools (Google Analytics, platform dashboards) to track, analyse, and optimise campaign performance against KPIs
- Produced weekly performance reports translating data metrics — CTR, conversion rate, engagement — into actionable recommendations for stakeholders

PROJECTS

Extended Customer Churn Prediction in the Telecommunication Industry

2025

MSc Data Science Project | Telecom / Business Analytics

- Built and evaluated multiple ML classification models to predict customer churn, identifying key drivers of attrition using a real-world telecom dataset
- Executed end-to-end pipeline: data cleaning, label encoding, feature selection, and class imbalance handling using SMOTE
- Compared KNN, Decision Tree, Logistic Regression, and Random Forest; optimised via GridSearchCV and cross-validation — contract type, tenure, and monthly charges emerged as top churn predictors
- Generated actionable retention recommendations by interpreting feature importance scores for business stakeholders
- Tools: Python, Scikit-learn, Pandas, Imbalanced-learn, Matplotlib, Seaborn, Jupyter Notebook

Fraud Detection Using Data Mining

2025

MSc Data Science Project | Finance

- Designed a fraud detection pipeline on a highly imbalanced credit card transaction dataset using advanced data mining and anomaly detection techniques
- Applied SMOTE oversampling and feature selection to address class imbalance, improving fraud recall from 64% to 88%
- Compared Random Forest, Decision Tree, and Logistic Regression; deployed best-performing model with AUC score of 0.97
- Tools: Python, Scikit-learn, Pandas, SQL, Imbalanced-learn, Jupyter Notebook

Digital Marketing Campaign Performance Analysis

Internship Project | Uaguria

Dec 2023 – Jan 2024

- Collected and analysed campaign performance data across multiple digital platforms using analytics tools
- Built performance dashboards to track KPIs including CTR, conversion rate, and engagement metrics
- Used data-driven insights to recommend optimisations that improved campaign efficiency

CERTIFICATIONS & CONTINUOUS LEARNING

- Google Data Analytics Professional Certificate – Google / Coursera
- Python for Data Science and Machine Learning Bootcamp – Udemy
- Tableau Desktop Specialist (In Progress)
- SQL for Data Analysis – Mode Analytics

KEY STRENGTHS

Analytical & data-driven mindset • Cross-domain expertise (Data Science + Business) • Strong written & verbal communication • Detail-oriented & deadline-driven • Fast learner & adaptable to new tools • Team player & collaborative
