

RISHAV SINGH

MSc Data Science | Machine Learning | Business Analytics

srishav1000@gmail.com | +91 6290852880 | [LinkedIn Profile](#)

PROFESSIONAL SUMMARY

Results-driven MSc Data Science student with a strong foundation in machine learning, statistical modelling, and data-driven decision-making. Combines a BBA background with hands-on experience in business development and digital marketing analytics. Proficient in Python, SQL, and core ML algorithms including KNN, Naive Bayes, Decision Trees, and Logistic Regression. Adept at translating complex data insights into actionable business strategies. Seeking to apply analytical and commercial skills in a data science or analytics role.

EDUCATION

MSc Data Science

2025 – Present

Chanakya University | SGPA: 8.93/10

- Core modules: Machine Learning, Statistical Computing, Data Mining, Deep Learning, Big Data Analytics
- Project: Credit Card Fraud Detection using KNN, Naive Bayes, Decision Tree & Logistic Regression with SMOTE
- Applying Python (pandas, scikit-learn, matplotlib, seaborn) for end-to-end ML pipelines

Bachelor of Business Administration (BBA)

2021 – 2024

Bharatiya Vidya Bhavan Institute of Management Science | CGPA: 8.8 / 10

- Specialisation in Strategic Management, Market Analysis, and Business Communication
- Developed strong quantitative reasoning and data interpretation skills applied to business contexts

Higher Secondary (ISC)

2021

Purwanchal Vidya Mandir School | 86%

TECHNICAL SKILLS

Languages	Python, SQL, Basics of R
ML / AI	KNN, Naive Bayes, Decision Tree, Logistic Regression, Linear Regression, SMOTE, Feature Engineering
Libraries	pandas, NumPy, scikit-learn, Matplotlib, Seaborn, imbalanced-learn
Data Skills	EDA, Data Cleaning, Handling Missing Values, Class Imbalance, Feature Scaling, Model Evaluation
Metrics & Tools	Accuracy, Precision, Recall, F1 Score, ROC-AUC, Confusion Matrix, Cross-Validation
Visualisation	Matplotlib, Seaborn, Google Data Studio (basics)
Tools	Jupyter Notebook, Google Colab, Git (basics), Microsoft Office Suite, Excel
Business Skills	Market Analysis, Strategic Planning, Client Relationship Management, Sales Analytics, Digital Marketing Analytics

PROJECTS

Credit Card Fraud Detection — ML Classification Study

2026

MSc Data Science Project | Finance

- Implemented and compared KNN, Naive Bayes, Decision Tree, and Logistic Regression on the ULB Credit Card Fraud dataset (284,807 transactions)
- Handled severe class imbalance (0.17% fraud) using SMOTE — demonstrated 460x more training data vs under-sampling
- Engineered preprocessing pipeline: StandardScaler for Amount, dropped Time, stratified 80/20 train-test split
- Optimised KNN by systematic K=1–20 search using F1 score as selection criterion
- Visualised results using confusion matrices, ROC curves, radar charts, and feature importance plots
- Achieved strong recall scores, minimising missed fraud (False Negatives) — the critical business metric
- Tools: Python, scikit-learn, pandas, imbalanced-learn, Matplotlib, Seaborn, Jupyter Notebook

Digital Marketing Campaign Performance Analysis

Dec 2023 – Jan 2024

Internship Project | Uaguria

- Collected and analysed campaign performance data across multiple digital platforms using analytics tools
- Built performance dashboards to track KPIs including CTR, conversion rate, and engagement metrics
- Used data-driven insights to recommend optimisations that improved campaign efficiency

WORK EXPERIENCE

Business Development Executive | J S Pigments Pvt. Ltd.

May 2024 – May 2025

- Leveraged sales data and market analytics to identify new business opportunities and generate qualified leads
- Executed targeted outreach campaigns, contributing to measurable pipeline growth and revenue increase
- Collaborated with cross-functional teams to align product offerings with data-backed customer insights
- Monitored and reported on sales performance metrics to guide strategic decisions

Business Development Intern | J S Pigments Pvt. Ltd.

Feb 2024 – Apr 2024

- Built and maintained client relationships through structured communication and follow-up tracking
- Prepared and delivered sales presentations using performance data to showcase product value
- Collaborated with operations teams to streamline processes, reducing turnaround times

Digital Marketing Intern | Uaguria

Dec 2023 – Jan 2024

- Designed and executed digital marketing campaigns across social and search platforms
- Utilised analytics tools (Google Analytics, platform dashboards) to track and optimise campaign performance
- Produced weekly performance reports translating data into actionable recommendations for stakeholders

CERTIFICATIONS & CONTINUOUS LEARNING

- Machine Learning with Python — scikit-learn, model evaluation, supervised learning (In Progress)
 - SQL for Data Analysis — querying, aggregating, and joining datasets
 - Data Visualisation with Python — Matplotlib and Seaborn charting techniques
 - Google Analytics Fundamentals — digital marketing measurement and reporting
-

KEY STRENGTHS

- Analytical & data-driven mindset
- Cross-domain: Data Science + Business
- Strong written & verbal communication
- Fast learner — proven in career pivot
- Team player & collaborative leader
- Deadline-driven and detail-oriented
- Comfortable working with ambiguous data
- Adaptable to new tools and environments
