CAREER OBJECTIVE

Dedicated MCA student with a strong foundation in software development and machine learning. Eager to leverage my skills in Python, SQL, and predictive analytics to contribute to technical projects in a challenging Software Developer or Data Analyst role.

EDUCATION

Master of Computer Applications (MCA) | Chanakya University (Pursuing)

Bachelor of Computer Application | Bangalore North University / Krupanidhi Degree College,
7.53 CGPA, 2022-2025 (Completed)

SKILLS

Programming Languages: Python, PHP, HTML, CSS, JavaScript

Database and Language: SQL, MongoDB

Course Work: Database and management system, Object-Oriented Programming, Computer Networks, Operating Systems, Data Structures and Algorithms

INTERNSHIP EXPERIENCE

Machine Learning Intern | PRISTON SMART ENGINEERS Jan 03/2025–Jan 27/2025, *Bangalore, India* **ON-SITE**

- ☐ Analysed datasets to deliver business insights.
- ☐ Conducted root cause analysis to improve model accuracy.
- ☐ Presented findings clearly to non-technical stakeholders.

Project name:

- ☐ **House Price Prediction:** Built a model to analyse housing data and predict prices using Python.
- ☐ **Campus Placement Prediction:** Developed a predictive machine learning pipeline using Random Forest to forecast placement outcomes. Optimization: Achieved 84% accuracy by implementing GridSearchCV to systematically tune model hyperparameters for peak performance. Explainability: Integrated SHAP (SHapley Additive exPlanations) to visualize and interpret feature importance, enhancing model transparency for stakeholders. Evaluation: Validated model performance using rigorous metrics including F1-Score, Precision, Recall, and ROC-AUC for robust and reliable classification.

EXTRA-CURRICULAR ACTIVITIES

- Certificate of Participation—**KRUPADECON** [International Conference], Krupanidhi Group of Institutions
- Participation Certificate—**INDUSTRIAL VISIT**, ISRO, Hassan, Karnataka
- Internship Completion Certificate—Machine Learning, Prinston Smart Engineers, Bangalore
