

H M VISHWAS

Full Stack Developer | Data Analyst | Cybersecurity
8618383909 | hmvishwasballari@gmail.com | Bangalore, Karnataka, India

PROFILE

Multi-disciplinary technologist with a BCA in Data Science (Chanakya University, 2022–2025) and currently pursuing an MCA with Cybersecurity specialization (2025–2027). Holds practical knowledge in Data Science, Machine Learning, Full Stack Development, and Cybersecurity. Proficient in Power BI, Tableau & Excel for data visualization; skilled in creative front-end development, database architecture, and hands-on penetration testing. Eagerly looking for opportunities in Full Stack Development, Data Analytics, or Cybersecurity.

EDUCATION

MCA — Cybersecurity Specialization

2025 – 2027 (Current)

Chanakya University, Bangalore

BCA — Data Science

2022 – 2025

Chanakya University, Bangalore | GPA: 6.9

TECHNICAL SKILLS

Programming Languages:	Python, Java, C, C++, R, JavaScript
Data Visualization:	Power BI, Tableau, Excel, Matplotlib, Google Charts
Data Science:	Pandas, NumPy, Scikit-learn, SQL, Statistical Analysis
Machine Learning:	TensorFlow, YOLOv8, Deep Learning, Collaborative Filtering, Object Detection
Cybersecurity:	Burp Suite, Nmap, ffuf, Dirsearch, XSS Testing, SQL Injection, Pen Testing
Full Stack Dev:	React, HTML, CSS, JavaScript, Node.js
Databases:	MySQL, MongoDB, Database Architecture
Cloud & Tools:	AWS, Microsoft Office Suite

PROJECTS

Movie Recommendation System

Semester 5

- Built an ML-based recommendation engine using collaborative and content-based filtering to suggest movies based on user preferences and viewing history.
- Improved user experience through personalized and accurate movie suggestions.

Student Attendance System — Face Recognition

Semester 6

- Automated attendance tracking using real-time facial recognition to eliminate manual errors.
- Integrated image processing pipeline for fast and accurate student identification in classrooms.

Web Technologies — Mod Car Hub

Semester 3

- Developed a full-stack responsive website covering legal and technical vehicle modification guides.
- Designed clean information architecture using HTML, CSS, and JavaScript.

Temple & Monument Detection Using YOLOv8

Semester 6

- Built a real-time deep learning object detection system to classify Indian temples and monuments from images using YOLOv8.
- Applied for heritage conservation and AI-powered recognition in autonomous systems.

LANGUAGES

Kannada (Fluent) | English (Fluent) | Telugu (Fluent) | Hindi (Fluent)

ADDITIONAL SKILLS

Microsoft Office • Fast & Accurate Typing • Time Management • Team Collaboration • Effective Communication • Problem Solving
